Consequently, save as provided above, no key information document required by Regulation (EU) No. 1286/2014 (as amended, the "**PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to any retail investor in the EEA has been prepared and therefore offering or selling the securities or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

PART B - OTHER INFORMATION

1. Listing and Admission to Trading

- (i) Listing: The Official List of Euronext Dublin
- (ii) Admission to trading: Application is expected to be made for the Notes to be admitted to trading on the regulated market of Euronext Dublin with effect from the Issue Date
- (iii) Estimate of total expenses related to admission to trading: EUR 1,000
- (iv) Market Making: Not Applicable

2. Interests of Natural and Legal Persons involved in the Issue/Offer

Save as discussed in the "*Subscription and Sale*" section of the Base Prospectus, so far as the Issuer is aware, no person involved in the offer of the Notes has an interest material to the offer.

3. Reasons for the Offer, Estimated Net Proceeds and Total Expenses

- (i) Reasons for the offer: General Business Purposes

4. Performance of Basket of Underlying Equities, explanation of effect on value of investment and associated risks and other information concerning the Basket of Underlying Equities:

The Notes are issued at par and are linked to the performance of the Basket of Underlying Equities.

The performance is determined as the weighted average performance of the Basket of Underlying Equities (including the 13 monthly fixings at the end of the maturity), multiplied with the Participation Rate of INDICATIVELY 115% (*to be determined no later than on the Issue Date, subject to a minimum of 100%*).

If the weighted average performance of the Basket of Underlying Equities (including the 13 monthly fixings at the end of the maturity) is positive, the Notes will redeem at a price above par.

If the weighted average performance of the Basket of Underlying Equities (including the 13 monthly fixings at the end of the maturity) is negative, the Notes will redeem at par.

The market value of the Notes during their term may fluctuate, and if the Notes are sold in the secondary market prior to maturity, they might have to be sold at a substantial loss. Investors should therefore be willing to hold the Notes to maturity. Investors cannot be certain that there will be a secondary market for the Notes and the Notes are not expected to be traded every day. Even if such a market did exist, there is no assurance that the market would operate efficiently or that the price of the Notes would reflect a theoretical or fair price.

The Notes may be redeemed early in accordance with the Conditions at their Early Redemption Amount (see item 31 of Part A of the Final Terms). If the Notes are redeemed early, they might be redeemed at a substantial loss. There is a risk that an investor may lose some or all of the value of its investment. Thus, the partial principal protection does not apply, if the Notes are redeemed early.

Finally, the payment of the Final Redemption Amount for the Notes is dependent upon the Issuer being able to meet its obligation on the Maturity Date. If the Issuer is not able to meet its obligation on the Maturity Date, the investor may lose part or all of the invested amount.

The Basket of Underlying Equities contains the equity securities of the Equity Issuers specified in item 17 of Part A of the Final Terms as Reference Items.

The description of the Equity Issuers is provided below and taken from Bloomberg. Additional information about the Equity Issuers can be found on their official websites:

Information technology and security risk: Risk of loss due to breach of confidentiality, failure of integrity of systems and data or inappropriateness or unavailability of systems and data. This includes security risks resulting from inadequate or failed internal processes or external events including cyber-attacks.

Financial crime: The risk of internal or external parties using the Group's infrastructure, products and services to move and conceal proceeds of criminal conduct, defraud, manipulate or circumvent established rules, laws and regulations, particularly in the areas of money laundering, terrorist financing, sanction violations as well as bribery and corruption, fraud and tax evasion/facilitation of tax evasion.

3. KEY INFORMATION ON THE SECURITIES

3.1 What are the main features of the securities?

The Notes are Euro (€) denominated equity-linked redemption Notes due 29 August 2030 (subject to adjustment), with International Securities Identification Number (ISIN) DK0030552138.

The Notes have a Specified Denomination of Euro (€) 1,000 and the Notes may be subscribed in a minimum lot of 4 Notes.

The Rights attached to the Notes

Performance of Basket of Underlying Equities, explanation of effect on value of investment and associated risks and other information concerning the Basket of Underlying Equities:

The Notes are issued at par and are linked to the performance of the Basket of Underlying Equities.

The performance is determined as the weighted average performance of the Basket of Underlying Equities (including the 13 monthly fixings at the end of the maturity), multiplied with the participation rate of INDICATIVELY 115% (*to be determined no later than on the issue date, subject to a minimum of 100%*).

If the weighted average performance of the Basket of Underlying Equities (including the 13 monthly fixings at the end of the maturity) is positive, the Notes will redeem at a price above par.

If the weighted average performance of the Basket of Underlying Equities (including the 13 monthly fixings at the end of the maturity) is negative, the Notes will redeem at par.

The market value of the Notes during their term may fluctuate, and if the Notes are sold in the secondary market prior to maturity, they might have to be sold at a substantial loss. The investor should therefore be willing to hold the Notes to maturity. The investor cannot be certain that there will be a secondary market for the Notes and the Notes are not expected to be traded every day. Even if such a market did exist, there is no assurance that the market would operate efficiently or that the price of the Notes would reflect a theoretical or fair price.

The redemption payment for the Notes is dependent upon the Issuer being able to meet its obligation on the maturity date. If the Issuer is not able to meet its obligation on the maturity date, the investor may lose part or all of the invested amount.

Under the terms of the Notes, certain dates may be adjusted if the date specified is either not a business day or not a trading day. Any adjustments may affect the return (if any) received. The terms of the Notes also provide that if certain exceptional events occur (1) adjustments may be made to the Notes and/or (2) the Issuer may terminate the Notes early. These events principally relate to the Basket of Underlying Equities, the Notes and the Issuer. The return (if any) received on such early termination is likely to be different from the scenarios described above and may be less than the amount invested.

Ratings: The Issuer has been rated by each of S&P Global Ratings Europe Limited (“**S&P**”), Fitch Ratings Ireland Limited (“**Fitch**”), Moody’s Investors Service (Nordics) AB (“**Moody’s**”), Scope Ratings GmbH (“**Scope**”) as follows:

long-term Issuer rating	S&P: A+	Fitch: A+	Moody's: A1	Scope: A+
short-term Issuer rating	S&P: A-1	Fitch: F1	Moody's: P-1	Scope: S-1+

A rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency.

Transferability of the Notes: There are no restrictions on the free transferability of the Notes, subject to the offering and selling restrictions of the United States, the EEA, the United Kingdom, Denmark, Finland, Norway and Sweden and the laws of any jurisdiction in which the Notes are offered or sold.

Status (Ranking): The Notes are issued on a senior basis. The Notes will constitute direct, unconditional, unsubordinated and unsecured obligations of the Issuer and will rank *pari passu* without any preference among themselves and at least *pari passu* with all other ordinary, non-preferred, unsubordinated and unsecured obligations of the Issuer, present and future, save for certain mandatory exceptions provided by law. The Notes may be subject to the power to write down or convert relevant capital instruments and eligible liabilities and the bail-in tool under EU Directive 2014/59/EU (“**BRRD**”) and EU Directive 2019/879 (“**BRRD II**”) as implemented into Danish law via Act No. 2110 of 22 December 2020, as amended from time to time, which may result in holders losing some or all of their investment.

Taxation: The Issuer shall not be liable for or otherwise obliged to pay any tax, duty, withholding or other payment which may arise as a result of the ownership, transfer, presentation and surrender for payment or enforcement of any Note and all payments made by the Issuer shall be made subject to any tax, duty, withholding or other payment which may be required to be made, paid, withheld or deducted.

Negative pledge and cross default: The terms of the Notes will not have the benefit of a negative pledge or a cross-default.

Events of default: The terms of the Notes will contain, amongst others, the following events of default and following any such event the Notes will be repayable at their early redemption amount: (i) default in payment of any principal or interest due in respect of the Notes, continuing for a period of 5 business days after the date on which notice has been given to the Issuer; (ii) default in the performance or observance of any other obligation of the Issuer under the Notes and such default remains unremedied for 30 days after notice requiring remedy has been given to the Issuer; (iii) a legal process is levied or enforced or sued out upon or against any part of the assets of the Issuer which is material in its effect upon the operation of the Issuer and is not discharged or stayed within 60 days of having been so levied, enforced or sued out; (iv) events relating to the bankruptcy of the Issuer; and (v) the Danish Financial Supervisory Authority files a petition for the suspension of payments of the Issuer.

Meetings: The terms of the Notes will contain provisions for calling meetings of holders (including by way of conference call or videoconference platform) to consider matters affecting their interests generally or to pass resolutions. These provisions permit defined majorities to bind all holders, including holders who did not attend and vote at the relevant meeting and holders who voted in a manner contrary to the majority.

Governing law: English law, except that the acknowledgement by the holders of the Danish statutory loss absorption powers shall be governed by Danish law and the registration of the Notes in VP securities shall be governed by Danish law.

Representative of holders: Not Applicable – no representative of Noteholders has been appointed by the Issuer.

3.2 Where will the securities be traded?

Application is expected to be made by the Issuer for the Notes to be admitted to trading on the regulated market of Euronext Dublin.

3.3 What are the key risks that are specific to the securities?

Risks associated with the Notes include the following:

Liquidity and secondary market risk: the Notes may have no established trading market when issued, and one may never develop. Investors may not be able to sell their Notes easily or at a price greater than the amount invested.

Risk of losing all or some of the investment: many factors are likely to affect the value of and return on the Notes, including interest rates, exchange rates, performance of the reference items and economic, financial and political factors.

The Notes may be modified: the terms of the Notes may be modified without the consent of the investor in certain circumstances. This will not always require the decision of a meeting of investors.

Exchange rate risks: exchange rate movements may adversely impact an investor where the Notes are not denominated in the investor's own currency and the imposition of exchange controls could result in an investor not receiving payment on the Notes.

Investors have no claim against the reference item: investors are exposed to the performance of the relevant reference item but will have no recourse to such reference item or to the issuer or sponsor of the reference item.

Risk of adjustment or early redemption following a disruption or additional disruption event: in this case any adjustments made or an early redemption of the Notes at the early redemption amount may not be a favourable outcome for investors.

Risk of volatility: movements in the price of the basket of equity securities may be subject to significant fluctuations. The timing of this may adversely affect the return to investors, even if the average level is consistent with their expectations.

Marknadsrisk: Risken för förlust i balans- och utanför balansräkningen som uppstår från ogynnsamma rörelser i marknadspriser.

Likviditetsrisk: Risken att inte ha tillräcklig likviditet eller finansiering vilket kan resultera i att behöva emittera instrument till avsevärt höga kostnader, oförmåga att genomföra affärsstrategin eller att inte uppfylla betalningsskyldigheter.

Operativ risk: Risken för förlust som uppstår från otillräckliga eller misslyckade interna processer, människor och system eller från externa händelser, inklusive legala risker.

Informationsteknologi- och säkerhetsrisk: Risken för förlust på grund av brott mot konfidentialitet, bristande integritet i system och data eller olämplighet eller otillgänglighet av system och data. 3. NYCKELINFORMATION OM VÄRDEPAPPEREN

3.1 Vilka är värdepapperens viktigaste egenskaper?

Obligationerna är Euro (€) denominerade Obligationer med aktierelaterad återbetalning med förfallodag den 29 August 2030 (med förbehåll för justeringar) med ISIN-kod DK0030552138.

Obligationerna har en Angiven Valör om Euro (€) 1 000 och Obligationerna kan tecknas i minsta post om 4 Obligationer.

Rättigheter tillhörande Obligationerna

Utveckling av den Underliggande Aktiekorgen, förklaring av påverkan på värdet av investeringen och medföljande risker och övrig information rörande den Underliggande Aktiekorgen:

Obligationerna emitteras till par och är kopplade till utvecklingen av den Underliggande Aktiekorgen.

Utvecklingen bestäms som den viktade genomsnittliga utvecklingen av den Underliggande Aktiekorgen, (inklusive de 13 månatliga fastställandena vid slutet av löptiden), multiplicerat med deltagandegraden som INDIKATIVT är 115 procent (att fastställas senast på emissionsdagen, med en lägsta nivå på 100 procent).

Om den viktade genomsnittliga utvecklingen av den Underliggande Aktiekorgen (inklusive de 13 månatliga avläsningarna vid slutet av löptiden) är positiv, kommer obligationerna att lösas in till ett pris över par.

Om den viktade genomsnittliga utvecklingen av den Underliggande Aktiekorgen (inklusive de 13 månatliga fixeringarna vid slutet av löptiden) är negativ, kommer obligationerna att lösas in till par.

Marknadsvärdet på Obligationerna under löptiden kan fluktuera och, om Obligationerna säljs på andrahandsmarknaden före förfallodagen, kan de behöva säljas med betydande förlust. Investerare bör därför vara beredda att hålla Obligationerna till förfallodagen. Investerare kan inte vara säkra på att det kommer att finnas en andrahandsmarknad för Obligationerna och Obligationerna förväntas inte handlas

varje dag. Även om en sådan marknad skulle existera, finns det ingen garanti för att marknaden skulle fungera effektivt, eller att priset på Obligationerna skulle återspegla ett teoretiskt eller rättvist pris.

Vidare är inlösenbetalningen av Obligationerna beroende av att emittenten kan uppfylla sina betalningsåtaganden på förfallodagen. Om emittenten inte kan uppfylla sina betalningsåtaganden, kan investeraren förlora en del eller hela det investerade beloppet.

Enligt villkoren för Obligationerna kan vissa datum ändras för det fall det specificerade datumet antingen inte är en arbetsdag eller handelsdag. Andra justeringar kan påverka avkastningen (om någon) som du mottar. Villkoren för Obligationerna anger även att för det fall extraordinära händelser inträffar (1) kan justeringar av Obligationerna göras och/eller (2) kan Emittenten återbetala Obligationerna i förtid. Dessa händelser hänför sig till den Underliggande Aktiekorgen, Obligationerna och Emittenten. Avkastningen (om någon) som du mottar på sådant förtida återbetalning kommer troligtvis avvika från de scenarier som beskrivs ovan och kan bli mindre än beloppet som du investerade.

Kreditbetyg/rating: Emittenten har åsatts kreditbetyg av var och en av S&P Global Ratings Europe Limited ("**S&P**"), Fitch Ratings Ireland Limited ("**Fitch**"), Moody's Investors Service (Nordics) AB ("**Moody's**") och Scope Ratings GmbH ("**Scope**") enligt följande:

Emittentens långfristiga kreditbetyg	S&P: A+	Fitch: A+	Moody's: A1	Scope: A+
Emittentens kortfristiga kreditbetyg	S&P: A-1	Fitch: F1	Moody's: P-1	Scope: S-1+

Ett kreditbetyg är inte en rekommendation av köpa, sälja eller behålla värdepapper och kreditbetyget kan bli föremål för suspension, sänkning eller tillbakadragande vid vilken tidpunkt som helst av aktuellt kreditvärderingsinstitut.

Obligationernas överlåtbarhet: Det finns inga begränsningar avseende Obligationernas överlåtbarhet, med förbehåll för begränsningar av erbjudanden och försäljning i USA, EES, Storbritannien, Danmark, Finland, Norge och Sverige och lagarna i alla jurisdiktioner där Obligationerna erbjuds eller säljs.

Status (Förmånsrätt): Obligationerna ges ut på oprioriterad basis. Obligationerna kommer att utgöra direkta, ovillkorliga, icke-efterställda och icke-säkerställda förpliktelser för Emittenten och kommer att rankas lika sinsemellan (*pari passu*) utan någon preferens sinsemellan och åtminstone *pari passu* med alla andra nuvarande och framtida icke-prioriterade, icke-efterställda och icke-säkerställda förpliktelser för Emittenten, med undantag för vissa obligatoriska undantag enligt lag. Obligationerna kan bli föremål för befogenheten att skriva ned eller konvertera relevanta kapitalinstrument och kvalificerade skulder samt verktyget för skuldnedskrivning enligt EU-direktiv 2014/59/EU ("**BRRD**") och EU-direktiv 2019/879 ("**BRRD II**") som implementerats i dansk lag genom lag nr 2110 av den 22 december 2020, med ändringar från tid till annan, vilket kan resultera i att innehavare förlorar en del eller hela sin investering.

Beskattning: Emittenten är inte ansvarig för eller på annat sätt skyldig att betala någon skatt, tull, källskatt eller annan betalning som kan uppstå till följd av ägande, överlåtelse, presentation och överlämnande för betalning av någon Obligation och alla betalningar gjorda av Emittenten ska vara föremål för eventuell skatt, tull, källskatt eller annan betalning som kan krävas att genomföras, betalas, innehållas eller dras av.

Negativklausul och cross-default: Villkoren för Obligationerna innehåller inte någon negativklausul eller cross-default.

Uppsägningsgrunder: Villkoren för Obligationerna kommer att innehålla bland annat följande uppsägningsgrundande händelser och efter alla sådana händelser kommer Obligationerna att återbetalas till dessas förtida inlösenbelopp: (i) underlåtenhet att betala av eventuell(t) kapitalbelopp eller ränta som är förfallen med avseende på Obligationerna och sådan underlåtenhet varar under en period om 5 dagar efter det datum då meddelande har lämnats till Emittenten; (ii) Emittentens underlåtenhet att utföra eller iaktta något av sina andra åtaganden enligt Obligationerna och sådan underlåtenhet fortgår i 30 dagar efter det att Emittenten har mottagit meddelande med krav på rättelse; (iii) ett juridiskt förfarande avseende beskattning eller verkställande eller stämning avseende eller gällande någon del av Emittentens tillgångar företas som är betydande vad gäller dess effekt på Emittentens verksamhet och som inte avslås eller inhiberas inom 60 dagar efter sådant juridiskt förfarande avseende beskattning, verkställande eller stämning; (iv) händelser avseende Emittentens konkurs; och (v) den danska finansiella tillsynsmyndigheten lämnar in en begäran om betalningsinställelse för Emittenten.

Fordringshavarmöten: Villkoren för Obligationerna kommer att innehålla bestämmelser för att kalla innehavare till fordringshavarmöten (inklusive möten via konferenssamtal eller videosamtal) för att överväga frågor som påverkar deras intressen generellt eller för att fatta beslut. Dessa bestämmelser tillåter definierade majoriteter att binda samtliga innehavare, inklusive innehavare som inte närvarade och röstade vid det relevanta mötet och innehavare som röstade på ett annat sätt än majoriteten.

Tillämplig lag: Engelsk rätt, förutom att erkännandet av innehavarna av de danska lagstadgade förlustabsorberande befogenheterna ska regleras av dansk lag och registreringen av Obligationerna i the VP Securities Services ska regleras av dansk rätt.

Representation för innehavarna: Ej tillämpligt – ingen representant för innehavarna har utsetts av Emittenten.

3.2 Var kommer värdepapperen att handlas?

Ansökan förväntas göras av Emittenten för att ta upp Obligationerna till handel på den reglerade marknaden Euronext Dublin.

3.3 Vilka nyckelrisker är specifika för värdepapperen?

Obligationerna är förenade med följande risker:

Likviditets- och andrahandsmarknadsrisk: det finns risk för att det inte finns någon andrahandsmarknad för Obligationerna när dessa emitteras och det är möjligt att en sådan aldrig utvecklas. Det är möjligt att investerare inte på ett enkelt sätt eller till ett pris högre än det investerade kommer att kunna sälja sina Obligationer.

Risk att förlora hela eller delar av investeringen: många faktorer kommer sannolikt att påverka värdet och avkastningen av Obligationen, däribland inkluderat ränta, valutaväxlingskurser, utveckling av referensobjekt och ekonomiska, finansiella och politiska faktorer.

Obligationerna kan ändras: villkoren för Obligationerna kan i vissa fall ändras utan investerarens godkännande. En sådan ändring kommer inte alltid att kräva beslut genom fordringshavarmöte.

Valutakursrisker: valutakursrörelser kan påverka en investerare negativt där Obligationerna inte är denominerade i investerarens egen valuta och införandet av valutakontroller kan leda till att en investerare inte får betalning på dessa Obligationer.

Investerare har ingen fordran mot referensobjektet: investerare utsätts för prestandan hos det relevanta referensobjektet men kommer inte att ha någon tillgång till sådant referensobjekt eller till Emittenten eller sponsorn av referensobjektet.

Risk för justering eller förtida inlösen efter en störnings- eller ytterligare störningshändelse: i detta fall kan eventuella justeringar som görs eller en förtida inlösen av Obligationerna till det förtida inlösenbeloppet behöver detta inte ge ett gynnsamt resultat för investerare.

Risk för volatilitet: rörelser i priset på korgen av aktier kan vara föremål för betydande fluktuationer. Tidpunkten för detta kan negativt påverka avkastningen till investerare, även om den genomsnittliga nivån är i linje med deras förväntningar.
